At the end of the fixed trials and practice trials on research, the questionnaire will be available to see if there is any correlation among the various measures and performance. If you have any questions related to the questionnaire used in the study, or if you have any concerns about your ability to answer questions, please let the experimenter know. Information about contacting services is located in provided for you under a word list following the various materials.

Participation: There is no fee for research. No remuneration is provided.

Risks and Discomfort: There are no anticipated discomforts that you might expect. You are given the option to withdraw at any time. To end your participation, you will be given a verbal statement and a written statement that you have made a request.

Possible Benefits: You will learn about the way your work would likely function along with this study. Through this study, you will learn about how your work is used and how to use information provided on a computer. You will be able to control and respond to a word list that has been generated to improve your work. You will be able to control and respond to a word list that has been generated to improve your work. You will be able to control and respond to a word list that has been generated to improve your work. You will be able to control and respond to a word list that has been generated to improve your work.

PROCEEDING WITH THE RESEARCH STUDY

Participants are eligible to take part in the study if they are 18 years of age, legally competent, and have given their informed consent. The research team will review the study with participants and obtain the informed consent process and participants can choose not to participate in the study at any time.

MANEATORE REPORTING

As responsible researchers under Clarkson University's Code of Ethics, we are required to report incidents of research misconduct, such as, sexual harassment or sexual violence involving a member of the Clarkson University community.

EQUIPMENT AND DEVICES THAT WILL BE USED IN RESEARCH STUDY

Data will be collected using a computerized system. The system will use a computer, a monitor, a keyboard, a mouse, and a printer. If you happen to feel uncomfortable at any time, please let the experimenter know. You will be able to control and respond to a word list that has been generated to improve your work. You will be able to control and respond to a word list that has been generated to improve your work. You will be able to control and respond to a word list that has been generated to improve your work.

PROTECTION OF PRIVACY AND CONFIDENTIALITY

The results of this study may be published in scientific journals, professional publications, or other media presentations.

The information collected during the study will be used for future research studies. It will be stored in a secure location. It will be stored in a secure location.
