

## Ambient/Focal Fixations

It is our hope that this article and potential, possibly, to research. The questionnaire will be available to use if you are a student at one of the following schools or in a performance space. If you have any questions related to the questionnaire visit the study, or if you have any comments about your survey or survey scores, please let the researchers know. Information about controlling services is available if you are interested in finding out more about stress management.

Benjamin Thaler has a Ph.D. in psychology from the University of Chicago.

**Alkaloids and Uremic toxins:** There are no anion-exchange resins that you might expect if you are going to discuss this. These are anion-exchange resins and they are used to remove toxins from the blood. They are used to remove toxins from the blood. They are used to remove toxins from the blood.

Possible benefits: We are not aware of any other research which directly links thinking and the mind. Therefore, this research may help us to understand how we communicate and to view educational resources on a deeper, systemic level and respond to a need in our lives. We are excited to improve both our cognitive and performance outcomes in many domains, including education, business, neuroscience, technology, emergency care, response, and law enforcement.

TEXT: "MONTAGNE" L'ESON RECHERCHÉMENT

Interventions may include a role play, a magazine page, a poster, a song, a light board, a maze, or a video created for the study. The research team will review materials with participants using the information consent process, and participants can choose not to participate in the study at any time.

### MANUFACTURE REPORTING

As responsible contributors under Clarkson University Title IX policies, we are committed to report incidents of discrimination based on sex, sexual harassment or sexual violence involving a member of the Clarkson University community.

## EQUIPMENT AND DEVICES THAT WILL BE USED IN RESEARCH STUDY

Don't tell us whether you're a student or not. We'll keep your information confidential. Although highly unlikely, if you happen to feel uncomfortable in any way during the interview, we understand while using the system that you're free to stop the interview immediately. If you continue to experience any discomfort after the study, please contact your professor and then provide us with the contact info.

#### PROTECTION OF PREFACE AND CONFIDENTIALITY

The results of this study may be published in scientific journals, professional publications, or other print or electronic media.

The information contained during the study is not to be used for future research studies or distribution outside the organization. The research is confidential and it is not to be used from the point of view of legal liability and representation.
