It can impact the final results and potentially towards or against the questionnaire will be easier for you to see. Therefore, you should also consider the relevance of the questionnaire. If you have any questions related to the questionnaire used in the study, or if you have any concerns about your ability to answer questions, please let the experimenter know. Information about contacting services is located in the provided information sheet and the first survey of scores is available online.

Participation: There is no fee for participating in this research.

Risks and Discomfort: There are no anticipated discomforts. But you might become tired and you might feel nervous. There is no risk of injury or discomfort. You will be given a verbal debriefing and you may receive a verbal debriefing.

Benefits: Research on the use of a new tool will help to identify the tool's strengths and weaknesses. Therefore, the research may help to understand how the research is used and to use information to improve the system. Systems that can detect and respond to user input have the potential to improve both user experience and performance concerns in many domains, including education, training, and other workplace settings. Improving the response and the effectiveness.

ETHICS STATEMENT AND REQUESTS

Research involving human subjects is subject to strict ethical standards. All research will be conducted in accordance with the ethical standards of the research community and the research community.

MANUSCRIPT REPORTING

As responsible researchers under Clarkson University's Code of Ethics, we are committed to report the results of our research. We will report the results of our research to the research community.

EQUIPMENT AND DEVICES THAT WILL BE USED IN RESEARCH STUDY

Data will be collected using a personal computer (PC) with a high-speed internet connection. The data will be collected using a personal computer (PC) with a high-speed internet connection. The data will be collected using a personal computer (PC) with a high-speed internet connection.

PROTECTION OF PRIVACY AND CONFIDENTIALITY

The research data may be published in scientific journals, professional publications, or other research publications.

The information collected during the study will be used for research purposes only. The information collected during the study will be used for research purposes only. The information collected during the study will be used for research purposes only.
